PROFILE SUMMARY

"Enthusiastic and dedicated front-end developer with a strong foundation in HTML, CSS, JavaScript, and responsive design. Eager to contribute technical and creative abilities to a dynamic team, Seeking a role as a front-end developer so I can use my thorough knowledge of programming frameworks and development software."

PROJECTS

WildLife and Nature

- Designed and developed a responsive website focused on wildlife conservation and animal welfare using HTML, CSS, and JavaScript.
- Created intuitive, user-friendly interfaces to promote easy navigation and accessibility of wildlife information.

MyCampusHub

- Developed a feature-rich college information website using HTML, CSS, JavaScript, and React.js to showcase college details, student reviews, testimonials, and an enquiry form.
- Built reusable and modular components in React to efficiently handle various sections of the website like the college overview, reviews, and testimonials.
- Implemented real-time form validation for the enquiry form using JavaScript and React to improve user experience and ensure data accuracy.

PortFolio

- A responsive personal portfolio website using HTML, CSS, and JavaScript to showcase projects, skills, and interactive user interface with custom animations, hover effects, and smooth scrolling using CSS and JavaScript.
